EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Cathy Moore on 5/11/09.

The application has been amended as follows:

In the claims:

In claim 1, line 2 before "a blend" the phrase "based on" has been deleted and the term - - comprises - - has been inserted in place thereof.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art does not teach or suggest a shirred tubular food casing comprising pleats, said food casing comprises a blend of at least one polyamide and/or (co)polyamide and at least one hydrophilic component, wherein the casing is biaxially stretch-oriented and is impregnated on the inside and/or outside with at least one component which allows the pleats of the casing to adhere to one another.

Auf Der Heide (US 5928738, cited by applicant) discloses a shirred tubular casing comprising a polyamide, hydrophilic component blend (column 3, line 62 through column 4, line 67). However, Auf Der Heide fails to disclose pleats and teach away

from pleats (column 7, lines 1-15). Applicant describes in the background of invention section that impregnation on the inside and/or outside with at least one component which allows the pleats of the casing to adhere to one another is known in cellulose casings. However, a search of the relevant prior art did not yield a reference which indicates it would have been obvious to have included impregnation on the inside and/or outside with at least one component which allows the pleats of the casing to adhere to one another in a polyamide blend casing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
